

Teacher Resources for Google Earth

<http://www.juicygeography.co.uk/>

This site is good for finding lessons k-12 as well as KMZ files and Google Earth Basics

<http://www.gelessons.com/lessons/>

This site includes the following:

1. Google Earth How To's - Learn how to do the basics so you are comfortable teaching with Google Earth
2. Student Controlled - Where the student controls Google Earth. Suitable for labs, mini-labs, home school, etc.
3. Teacher Controlled - Suitable for Lectures, Presentations, whole class discussions, etc.
4. Mini-Lessons - Lesson starters for looking at various topics

www.speakeasy.org/~endico/maps/usgs.html

This site uses Google Maps with data provided by the U.S. Geological Survey to show earthquakes of magnitude 2.5 or greater in the past seven days.

Suggested activities: Study patterns, then correlate them with plate tectonics and faults.

<http://teacher.scholastic.com/lessonplans/exploreyourearth/>

Scholastic, Inc. and Google Earth team up to present a lesson on climate change. This gives a good example of the kind of activity students could do with Google Earth.

There is also an earth contest.

<http://www.kmzlinks.com/>

An excellent resource for teachers. Download ready made kmz files on a variety of topics. Be sure to scroll down to the "links" section. Google Earth just became your new hobby. ☺

Follow Santa as he delivers presents
around the world. Coming December 2007.
