

Exer 1.7

[Computation/intro/intro105]

Which of these statements creates an operator that performs the calculation $x^2 + 3$:

- A one=function(a){x^2+3}
- B two=function(x){a^2+3}
- C three=function(a){a^2+3}
- D four=function(){x^2+3}
- E None of the above.

Exer 1.7-1
