

Rank each talk both quantitatively (**10 is high**) and qualitatively in the following two categories:

Delivery. Was the talk well organized, interesting, and clear? Did the presenter seem well prepared, motivated, and enthusiastic? Were the overhead transparencies (or PowerPoint slides) legible and effective? Did s/he talk for 20-25 minutes?

Scientific Content. Did the presenter enable you to understand the scientific principles involved? Did the presenter communicate the significance of his or her topic? How effectively did s/he answer questions?
