

Macalester Biology Minor Plan

Student Name (print): _____

ID#: _____ Expected Graduation Date: _____

The requirements for a minor in biology are five biology courses, which must include two from the core courses (BIOL 170 – Ecology & the Environment, BIOL 180 – Biodiversity & Evolution, BIOL 190 - Genetics, BIOL 200 - Cell Biology).

At least two of these required biology courses must have a lab.

Only one biology course numbered below 150 may count toward the biology minor.

List the **2 core courses** and when you plan to take them. If you have already received a letter grade, please list it:

Course Number	Title	Grade/Semester
BIOL		
BIOL		

List the **3 additional courses** for the Biology minor and when you plan to take them:

Course Number	Title	Grade/Semester
BIOL		
BIOL		
BIOL		

Which of the above 2 courses should count as **lab courses**:

BIOL _____ and BIOL _____

Any additional notes:

I grant the Biology Department permission to include my photo on the majors bulletin board and in departmental newsletters.
