

## **Reflective Activity**

Multifaith Council Conversations

## **Activity Description**

Weekly discussions about religious identity

## **Preparation, Handouts, Resources**

Students co-facilitate conversations around different themes.

## **Learning Goals**

Deepening capacity for dialogue across difference

## **Challenges/Obstacles**

These dialogues require a community of trust, so it is essential for the community to engage in trust building exercises prior to difficult dialogues.

## **Recommendations**

This model builds student capacity to step out of the role of "participant" into the role of "facilitator." As facilitator, students cultivate different skills than when they are a participant.
