**Beginning Classical Greek provides an opportunity for highly motivated students to immerse themselves in the study of ancient Greek so that they may progress rapidly through Greek grammar and then into reading Greek texts at the intermediate level. This two-course series will be intense and fast-paced, with daily quizzes, as well as weekly tests. It will require a substantial time commitment. However, upon successful completion of the course, students will be able to begin reading the likes of Homer, Plato, and Sophocles -- and that is a summer well-spent!**
