Which describes the scope of the intended audience for your project?

All projects must address the following, regardless of intended audience scope:
- Ethical considerations regarding privacy and protection of human subjects, i.e., IRB.
- Proper citations, attribution provided for all materials used.

Starting Point: How to determine if intended audience scope is possible.

Document for each copyrighted resource used in the project.

Resource usable under Creative Commons license

Yes

No

Reached affirmative outcome in Fair Use analysis

Yes

No

Obtained written permission from copyright holder

Yes

Text

IF ALL COPYRIGHTED RESOURCES USED IN PROJECT = "YES"

Class-Only

IF ANY COPYRIGHTED RESOURCES USED IN PROJECT = "NO"

"Walled Garden"
When permissions cannot be obtained, project must be kept in environment with restricted access, password-protected, time-limited life-span.
