VSP Provider Search

Go to https://www.vsp.com/choicewithaffiliates

Enter your zip code.

Do not check the boxes for Premier locations or practices.

If you want to search a certain mile radius, you can click on the Advanced Search circled in red, and you can adjust the miles number in your search.

Checking the Premier provider boxes on the provider search webpage is going to provide you with the smaller clinics and private practices in the VSP network.
