Since the last century, Asia has experienced rapid urbanization. It is now home to over half of the world’s most populated cities. By 2010, the urban population in the Asia-Pacific region has surpassed the population of the United States and the European Union combined. In this course, we will focus on cities in East, Southeast and South Asia. We will first contextualize the rapid urbanization in the region’s changing political economy, and identify urban issues that are unique to this region. We will further explore different theoretical approaches to understand Asian cities; several of them challenge mainstream urban theories rooted in the experiences of West European and North American cities. Upon the completion of this course, students will acquire substantive knowledge on contemporary trends of urban development in Asia and develop familiarity with related ongoing theoretical debates. In addition, students will conduct individual research projects to develop a deeper and more concrete understanding of the contemporary urbanization processes in Asia.

Learning Objectives

By the end of the course, you should be able to:

- Identify the significance of Asian cities in contemporary urban research;
- Describe and appreciate the complexity and diversity of Asian urbanism;
- Apply geographical approaches and concepts to examine the uneven development in Asian cities;
- Analyze how urban development in Asia interacts with the local social, cultural, and political contexts;
- Critically discuss problems pertaining to contemporary Asian cities, and analytically assess the merits of proposed solutions.
- Complete an independent research paper and present it at a professional conference.
Attendance and Participation

Attendance and participation are required. This course is a research-oriented seminar, and you will learn through in-class discussions, workshops, and various activities designed to help you improve your independent research project. Handouts will be distributed from time to time in class. If you miss a class, it is your responsibility to catch up with the course materials. The instructor and the TAs are not responsible for providing handouts for students who are absent from class.

Producing a Positive Learning Environment

To give students the opportunity to think about Asian cities in new ways, we will have to work together to create a positive learning environment. For this to happen, I expect your cooperation in at least three ways:

- The first expectation is to respect the rights of other students to learn.
- The second is to acknowledge and respect the diversity of participants in this class. Discussion of controversial issues is encouraged. Even if you do not agree with the points of view of others, as citizens of this class we all share a responsibility for respecting all individuals as fair-minded persons. Diversity is a strength in our society at large and here at Macalester College. In this class you will be asked to maintain an open mind to the differences around you, and place positive value on that diversity.
- The third expectation is attendance and participation. You are expected to be present at the beginning of class and stay until the end, and to fully participate in class discussions and activities. You are asked to turn off your cell phone before entering the classroom and not to use electronic devices for activities unrelated to the course.

In return, I promise to be on time, to address your questions and concerns, to give you feedback on your performance, and to return graded materials in a timely manner. You can expect the TAs and I reply to your emails within 48 hours, and you are encouraged to meet with us and discuss your questions and concerns during our office hours.

Students with special needs: All of us learn in different ways and with varying degrees of success. If you know of any factors in your life that may hinder your abilities to learn up to your potential in this course, please notify me as soon as possible. You should also contact Disability Services (phone: 651-696-6874; email: disabilitieservices@macalester.edu) or the MAX Center’s Disability Accommodations (phone: 651-696-6121, coordinator’s email: lucking@macalester.edu), both located on the first floor of Kagin Commons, who have more expertise than I do in determining what special steps need to be taken to enable you to participate fully.

Mental health and wellbeing: All of us may feel anxious and stressed from time to time during the semester. If you need support for mental health and wellbeing, visit the Laurie Hamre Center for Health and Wellness in the Leonard Center, or call 651-696-6275 to reach them by phone.
The Organization and Expectation of the Seminar, Student Work, and Evaluation

The class will meet once a week on Monday evenings. Each class meeting comprises two parts. The first part is the seminar discussion, focusing on key literatures of Asian urbanism; the second part of the class is the research workshop, focusing on research methods and your independent research projects.

The readings for the seminar discussion of each week will be posted on the course Moodle site. For the research workshop, we will use the following book:

Students are expected to have completed the required readings prior to each class. Students will also be responsible for formulating questions as the basis for in-class discussions and analysis of these materials. All students are expected to fully participate in all class activities.

Short lectures on the urbanization patterns in three sub-regions

This course is a research semester intended for junior and senior students, or students with prior knowledge of urban theories and/or Asia. Since students of this course may come with different levels of background knowledge, on 02/03 we will go over the basics about Asian Cities in class together. Students will be divided into three groups, and each group will be responsible for preparing a 30 minute short lecture to teach the class about the urbanization patterns of the sub-region of Asia assigned to the group.

Seminar discussion

Starting from 02/10, every student is required to formulate three questions for discussion each week based on the readings of the week. Discussion questions may seek for clarification, but it would be more meaningful if they can facilitate substantive and theoretical debates. Good discussion questions generally come from comparative analysis across the readings and tend to allow for different opinions to be introduced. Discussion questions should be posted to the Moodle site no later than 8pm on the Sunday prior to the class meeting.

Each student will be designated as discussion leader at least twice over the semester. The discussion leaders will develop a discussion agenda with a set of written questions for discussion based on the questions submitted by all students. The leaders should email the discussion agenda to the instructor and all the participants by 5pm on Monday prior to the class meeting. The discussion leaders will also be responsible for leading discussion in class around those topics.

The discussion leaders are expected to: 1) collectively sort the reading questions into an organized discussion agenda; 2) lead the class to conduct a productive discussion that addresses the major themes and debates in the assigned readings; 3) help provide take-away points to conclude the discussion; and 4) manage the time of discussion reasonably.
Response paper to seminar readings

You will also prepare a short response paper to the readings for the week when you are the discussion leader. The response paper should not exceed 1,000 words. It should include a summary of the main points of the readings as you perceive them, comparisons across the different readings, a critical assessment of the merits and clarity of the readings, and any questions that might have arisen. The response paper is due a week after the discussion. Late assignments will be penalized 10% per day. Each student will submit two response papers over the semester.

Research workshop discussion

We will read and discuss eight major urban research methods in our research workshops: archival research, interviews, urban ethnography, questionnaires, discourse analysis, diaries, GIS, and photography and videos. Each student will sign up for two methods over the semester. For each method, the students who sign up for it will: 1) do a short presentation about the method, 2) lead the discussion about the method, focusing on its merits and limitations, and 3) use their own independent research as an example to explain how they may employ that method and seek the class’ feedback.

Research Paper

A major component of this seminar is to undertake a research paper. This will entail posing an interesting problem or question related to studies of Asian urbanism, and setting out to answer this question through library research, first- and second-hand data collection, and the analysis of relevant archives and data. For example, a research paper can analyze a series of case studies (that other authors have already published) in order to answer a question from a perspective that had yet to be examined in this manner. The research paper can also reinterpret a situation by analyzing a set of data (either quantitative or qualitative, or both) or relevant literature from a different angle. Primary data collected during a study abroad experience is acceptable for the use in this paper. If you plan on interviewing persons during the term of this paper, you may need to get clearance from the Social Science Institutional Board (SSIRB). Information about the SSIRB review application and process at Macalester can be found here: https://www.macalester.edu/committees/irb/social-sciences-IRB/. The deadlines for applications this semester are: the fourth Wednesday of the semester, the day before spring break, and the third Thursday in April. If your research needs SSIRB clearance, you should aim for the first deadline because you will not be able to start your research until your SSIRB application is approved.

Your paper will be graded for content and ideas as well as effectiveness of writing (organization, clarity, citations, spelling, punctuation). In order to facilitate the research and writing process, and limit the possibility of a last minute effort, a number of intermediary due dates are scheduled for the submission of: 1) the research topic and description, 2) the preliminary bibliography, 3) the annotated bibliography and paper outline, 4) a research paper draft, 5) a peer review exercise, and 6) the final research paper. All written assignments must be printed out and turned in on time. Deadlines for the assignments are specified in the following sections. Late assignments will
be penalized 10% per day. Your final research paper is expected to be a paper between 3,500 to 4,000 words and comply with an academic format (APA style preferred).

Peer review exercise

In addition to receiving feedback on your draft paper from the course instructor, each of you will provide feedback for and receive comments from at least two other class members. Peer review will take place in class during the research workshop on 04/13. The written comments are due at 12pm on 04/16, the Thursday following the in-class peer review exercise.

Research presentation

You will be required to present your research paper findings either in class on 04/27 and 05/04, or at the Midwest Undergraduate Geography Symposium on April 25th, 2020, if you would like. You will have 12-15 minutes for your presentation (depending on which venue you choose to present), followed by a 3-5 minute Q&A period.

Academic Honesty

It is necessary to remind everyone that academic dishonesty in any form will not be tolerated. Honesty and integrity is expected at all times. Cases of academic dishonesty will be handled according to the College’s guidelines. You are responsible for learning about these policies (http://www.macalester.edu/academicprograms/academicpolicies/academicintegrity/), so that you can meet the responsibility. By participating in this course, you agree to submit your assignments in digital form if requested, enabling the instructor to ensure they are not plagiarized from other materials available on the Internet and elsewhere.

Grading

Students taking the course on an A-F basis will be graded as follows:

A – achievement that is outstanding relative to the level necessary to meet course requirements.
B – achievement that is significantly above the level necessary to meet course requirements.
C – achievement that meets the course requirements in every respect.
D – achievement that is worthy of credit even though it fails to fully meet the course requirements.
S – achievement that is satisfactory (equivalent to a letter grade of at least C-).
F – NC, signifies that the work was either (1) completed but at a level of achievement that is not worthy of credit, or (2) is incomplete and with no agreement between the instructor and the student that the student would be awarded an “I”.
I – Incomplete. A grade of incomplete may be awarded at the discretion of the instructor, if requested by the student, under the following conditions: (1) at least three-quarters of the required work for the course has been completed, (2) unforeseen circumstances beyond the student's control (usually restricted to illness or family emergency) preclude completion of the remaining work for the course by the semester deadline, and (3) the student is not on strict academic probation. Note that poor planning or having a lot of work to complete at the
end of the term are not, in fairness to other students, considered circumstances beyond a student’s control.

Grades for the course will be assigned based on the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93-100%</td>
</tr>
<tr>
<td>A-</td>
<td>90-92.9%</td>
</tr>
<tr>
<td>B</td>
<td>87-89.9%</td>
</tr>
<tr>
<td>B+</td>
<td>83-86.9%</td>
</tr>
<tr>
<td>B-</td>
<td>80-82.9%</td>
</tr>
<tr>
<td>C</td>
<td>77-79.9%</td>
</tr>
<tr>
<td>C+</td>
<td>73-76.9%</td>
</tr>
<tr>
<td>C-</td>
<td>70-72.9%</td>
</tr>
<tr>
<td>D</td>
<td>67-69.9%</td>

**Course Outline and Readings**

*Any suggestions that will enhance learning are welcome. Please note that the class schedule and readings may be subject to change. It is your responsibility to keep up with any changes.*

[*Optional reading]*

01/27: Course overview  
Syllabus; discussion assignments.

02/03: The basics  

*Assignment due in class:* Student lectures on sub-regions’ urbanization patterns

02/10: Cities in the global South  
University College London, Thinking across boundaries videos  
- Part 1: Why call it the “urban global south”?  
- Part 3: What kind of theory is required for the urban global south?  
- Part 2: What kind of planning practices does it call for?

*Research workshop:*  
*Assignment due in class:*  
A paragraph describing your research project that includes answers to the following questions:  
- What is your planned topic? Why do you think this topic is important and worth your time to conduct a research?  
- What is your research question?  
- What kinds of first- and second-hand materials do you plan to use?  
- What kinds of research methods will you apply?  
- At the end of the paragraph, please list three key words for your research.
02/17: Significance and theorization of Asian Cities

Research workshop:
Library research session: meet at Library at 7pm. (Location TBD; Discussion on the readings will take place after we return from the library).

02/24: Living in the city

Research workshop:

Assignment due in class:
Revised Research Questions, Description, data collection plan
Preliminary bibliography

03/02: Gentrification

Research workshop:
03/09: Beyond dispossession

Research workshop:

03/16: Spring break

03/23: Developing research project
Research workshop:
Individual meetings

Assignment due in class:
Paper outline and annotated bibliography (with at least 12 academic papers)

03/30: Urban mega projects/events

Research workshop: Individual meetings

04/06: Research week, not meeting in class
[Catherine is away for the annual meeting of American Association of Geographers]

04/13: Urban sustainability
Worlding Cities: Asian Experiments and the Art of being Global, Wiley Blackwell, 55-76.

Assignment due in class: Research paper draft
Research workshop: Peer review research paper draft

04/20: Policy circulations

Research workshop: Individual meetings

04/25 (MUGS), 04/27 & 05/04: Research paper presentation
We will also do course evaluation on 05/04.

05/07: Final paper due
12pm in Catherine’s mailbox.
