Informational & Job Interviews
Apr. 5

Led by Professor Andrea Kaston Tange & Kate Larson

How do you go about preparing for an informational or job interview? How do they differ? What strategies should you have to make the most of an interview? How can you make yourself stand out as a job candidate?

This session will help you:
• Prepare ahead of time for two different kinds of interviews
• Identify the differences between the two
• Ask questions that will generate the information you are seeking
• Keep nerves down, or embrace the nerves
• Learn the best ways to talk about yourself and highlight your skills in an interview

A series co-sponsored by the Departments of Classics, English, History, and Religious Studies, and the Career Development Center
