

INTRODUCING A BETTER CLINIC

Healthcare that comes to you.

Nice Healthcare is a new free benefit offered by your **employer**. You now have access to unlimited primary care visits through their video visits, chat visits and home visits.

**Beginning
5/1/2020
Free
Visits**

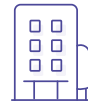

Getting started with Nice is easy

Simply download the 'Nice Healthcare' app, sign up and schedule a visit at the time that works best for you.

Start with a **chat or video visit**, which includes diagnosis, prescriptions, referrals, and wellness.

If deemed medically necessary, **we'll send a provider to your home** for labs, x-rays and medical assessments.

Then, **check back in the app for your results** and a treatment plan from your provider. You can also ask questions and chat with your Nice team all from the palm of your hand.

Schedule your visits on the Nice Healthcare app.
