

## Why should you consider Long Term Care Insurance?

Long term care consists mainly of personal care rather than medical care, which is typically covered by a health plan. Here's why you should consider long term care insurance.

- It provides benefits for assistance with everyday activities like eating, bathing and dressing, which may be needed as the result of an injury, accident, illness, surgery, or simply old age.
- It provides more choices for where care is received: at home, in the community or in a nursing facility.
- It can help protect your savings and family from significant out-of-pocket costs.
- It may provide peace of mind for you and your loved ones.
