Meeting begins 19:00

00 IC: Do not write on our new folders, we want to use them in the future. Next is Cole with the NYT update.

CW: We had an meeting with Mr. Wade, Tejas will speak more.

TS: We had a skype talk, he showed us around the digital version and the different options. We thought the physical copy is a great resource, however the online version is very interesting as it has archives going back hundreds of years.

CW: We thought our best next steps would be working on popularizing the academic passes while keeping our current subscription. In addition, I have a box of stuff here that will help. I'm going to pass around some pens, they say "NYT.com/passes". So, I hope everyone takes this as an opportunity to spread the word to the student body about these passes. There is other stuff in here too, I'll think later about how we can use them. Lucy asked about the crossword, the online passes give the same access as the website.

04 IC: Next is Cole with the representative bill.

CW: This is for a student to sit on the board of the union park district counsel, nobody tried to change anything so I move to approve this bill, bill #6.

WT: m2q

RB: I object

IC: We will not end discussion.

06 RB: I just want to know if we can get anybody to do this.

JL: If we advertise it well, then yes. If not, we'll probably get like 2 people.

AI: I think the future execs will have problems filling this position. Is there a limit on this bill?

RD: If we put a time limit on it then the quality will suffer. I'm just concerned about student interest.

CW: This has come up before, this bill is to means to fill in the position. The lack of applicants, I think, is a separate question.

SN: What happens if we don't get a applicant?

08 WT: I can do it next year if no one wants to.

RD: What we normally do is resend out the application, it usually works. This position is a real goodwill project, it might be less appealing to people.

IC: I agree with rothin but we shouldn't have a position that we think is good just because we're afraid that nobody will fill it.

JK: We have a guest coming in soon, keep that in mind.

WT: It could be a good thing for poli sci majors who want to get in to community work.

KF: m2q

24 for, 0 opp, 0 abstain

Inc: ok, shall we continue? Is fresh concepts here? Not yet. DO we have time to move on?

SM: This here is our resolution for our summer internship opportunities, we've talked about this a lot before. This is the introduction.

WT: I didn't know majors were required.

SM: Poli sci requires an internship, environmental studies. Some others too.

IZ: Progress is going on, ask me or Steph if you have any questions.

CD: Is there going to be a specific committee who decides who gets the internships?

IZ: It'll be handled by the staff, also by the internship office.

AB: It's a very limited amount of funding for this office but the base work is already there.

14 SLK: We're continuing to work on the mental health zine, the cover is getting worked on too. I'll pass around what we've got so far.

JK: This is mike, he's with fresh concepts. He's here to talk about his budget for this year. Tens if you can pull up the budget?

Mike: Thanks for letting me come in. Our budget is pretty high, the first item is audits, flyers and pizza. This is important to have us pick the new faces, we target freshmen and sophomores. It's a pretty popular group so we need publicity. Next is our fall workshop, we don't have a coach so we usually bring in somebody to teach. You'll also see a spring workshops, its good to have both these for students abroad. Next is family fest, it's a large event. We had a lot of people show up so it's a big thing for us and the campus. We also bring in comedy groups from Chicago and the like. We also have a chow on here, its coming up pretty soon. We have to share costumes and props but we also need to have that flexibility for our own requirements.

WT: Two questions, are your workshops open to all students?

Mike: Not traditionally.

WT: Are these just presentations for orgs that aren't being approved?

JK: These are orgs that have requested over $4000. We'll vote on this next week. Next group comes in 7:45.

RD: Why are we waiting to vote? Wouldn't this be easier to have this as an allocation?

JK: He came in because of scheduling.

RD: We're trying to talk through budgets right?

IC: What... that amount was $6000, is that how much you're recommending?

JK: No.

IC: Its weird we're getting this information while you've already decided.

JL: well its in our bylaws. We shouldn't tell them at this meeting what we're cutting.

RD: Do the other orgs know what they're getting? I would like us to conclude our budget rather than having things hold the budget ransom.

JK: Moving forward, how do you want to do this? Should I say how much I approve them for before we talk?

23 PM: I'm seeing this more like an appeal process. Are they coming in to ask for more?

KF: The orgs that are coming in next week will be aware of what is being cut. I would like to see what the budget vs approved amount come out as, like peace said I think an appeal process would be easier.

IC: I think its critical we don't announce the req amount at this meeting, it'll be bad. Does everyone agree?

25 JM: They're not supposed to appeal until after the budget is approved. When they're coming in they should expect this process to be an appeal.

RD: The point of having orgs come in doesn't make sense if they don't know they're getting less than that. We're not telling them that we think their reasons for the budget are legitimate.

JK: What do we do today? Think about that. Even everyone think it's a good idea to be able to look at the spreadsheet? Also pass the Oreos.

JM: The reason that they also come in is because the FAC is recommending a budget. You as the LIB can approve them for more is the FAC cuts more than you think should be. That's why its good to hear their reasoning, you all can reverse what the FAC did.

CW: I've had conversations with outing club about their budget, I misunderstood the procedure so they might already know their recommendation.

RD: We can make orgs appeal once we pass a budget. If they come in to appeal then we should be able to hear that. Approving a budget after hearing all these orgs is redundant. We should be able to give orgs what they need without an appeals process. Today is a bad situation, we shouldn't place the burden on the orgs to convince us.

SM: Can you tell us now what you've approved?

JK: I can do that when it come to my turn.

30 IC: Sexual assault forum?

AB: It's next Tuesday, yay. You should all know the format. We've gone over the suggested topics, the four things we have are reporting, Kargin, resources, and social events. We wanted student led groups with a mad. SSRC are modding each small groups. We have volunteers coming in to help with the forum. Next weeks meeting will solidify the topics, not to corridor conversation, but to facilitate it better. I sent out the sign up sheet for people who signed up to volunteer, if you didn't get it and want to help then let me know. Any questions?

WT: How long is this event?

AB: An hour and a half, it might go over though.
It'll be in the daily piper too. Invite people to the FB event. For chest stuff, one update to the wazina event. They as

We have a new guest.

I usually ask for what their typical allocation is and try to barter them down. Two poets usually means their on tour to
the things we really want to do is get students involved with what they are eating. I think that the broad scope we have is worthy of our own projects. MULCH is much more about production rather than consumption.

A8: There used to be an org called food nooks.

MF: Yeah that group helped get the commitment passed but I don't think they were an org. One of the main people in that org has been meeting with us to help, but since it wasn't chartered then we can't pick it up again.

IC: Thanks for coming. We are moving on to the budget discussion...

JK: Before that we have another guest! Thanks for coming. The Africa week additional allocation is in question. They requested funds for a speaker and some food for an event. I believe FAC recommended the full amount which is 3440$.

30 NE: How much money is left in the add allocation fund?

JM: About 3k. FAC recommended it all creating a 190$ deficit.

JK: I messed up, it was supposed to be 3040.

WT: I move to amend the allocation to 3040$.

PM: I object.

17 for, 9 against, 0 abstain

PM: The reason I objected is because Africa just got in contact with these speakers, I move to amend to 2840$.

JK: I withdraw my motion.

34 PM: I motion to approve 2840$ for Africa.

JC: What was the 100$ that the FAC wanted to remove?

JK: It was from the pizza thingy.

JC: Is this number correct then? Ok.

A4: If we fund this then this will be the last event we can fund right?

37 KP: Does this new number work with what you’re requesting?

A: Yes, it would work find. One of the speakers dropped out yesterday, we’re spending the most of our money on our main speaker. The extra 200 was for accommodation and transportation for the second speaker. We will also be able to provide food for this event as well.

LW: If we approve this we will have $390.

38 WT: We also have the reserve fund… no?

JM: I don’t know if we added enough money to the reserve fund. I can find out next meeting how much we have.

I2: Be mindful of our guidelines, secondly I was planning on introducing a bill from the LCB which will be coming up. I think this is the end of our budget so we might as well fund this group.

DT: I move to question

41 24 for, 0 opp, 1 abstain

JK: One more thing from FAC, Mac public health submitted a request and we recommended to fund $0. There was no knowledge on the mac public health side for this lose the shoes as it was pretty much strong-armed by women's soccer. Also Lose the Shoes will be happening but not through our funding.

IC: m2q

25 for, 1 opp, 0 abstain

JK: We also recommend $0 for sitting at mac retreat.

44 PM: m2q

25 for, 0 opp, 0 abstain

RD: I know it's a travel grant thing but didn't they already have a retreat?

IC: Now it’s the budget time… right?

JK: Yes, this past week the FAC convened to talk about budget. We are all better for the process. We decided that we needed to make orgs use checkbook. Any org that hasn’t actively used their checkbook will get a 50% cut in their budget. We looked at each budget and made cuts accordingly. Anyone with a mac.edu link can look at it.

46 CW: With did you talk to orgs about using checkbook? Is this cut the best way to do this?

JK: Everyone knows I love it. I mentioned it at the budgeting org presentation. I feel like we’ve mentioned the importance of it many times. It’s a little inexescusble to not use it as a org leader. 50% is a nice round number so that's what we decided.

48 IC: I'm uncomfortable with this idea, it’s a huge cut which is detrimental to all orgs.

NE: I agree. I don’t think its fair to orgs to impose this cut if the orgs didn’t know about the consequence. If I would have know about this cut then I would have changed my behavior. Remember this cut is hurting the next years org leaders due to the actions of this years actions.

JC: I also don't agree with the cut. Many of these orgs just can’t operate without half of their budget.

JK: We didn’t have time to talk about this in full, we talked about having org leaders come in and prove they’ve been looking at their budgets.

51 RD: The reason we don’t what money orgs have is because orgs don’t use checkbook. There is no way to sanction these orgs because its their money. There is nothing that says they can’t come back with an additional allocation. Its been clear to me when orgs make their budget there will be teeth at one end. There only way we know money is actually going to be spent is if orgs come in later.

IC: This is just the presentation of this introduction. The meeting will end if we go overtime.

JM: One of our responsibilities as student gov is watching the student activity fee. 48% of the money we’ve allocated is lost. Orgs are not keeping track of where their money is going. We’ve told these orgs multiple times that checkbook is required. FAC chairs have mentioned it, the handbook mentions it, the website talks about it. We shouldn’t excuse ignorance about this. I’m not saying people are spending money badly, we just want to know where the money is. For example the LCB conversation we had earlier mentioned money locked up in orgs, this is the only way we can ensure this will happen. Orgs can't continue to not follow the rules and expect to get more money.

IC: We have 4 minutes left unless we suspend the bylaws.

JK: Good job standing up.

57 DT: If this is going to happen every year then we should make it explicit for orgs.

JK: These budgets can be looked at individually by the LB.

58 CD: I think this is a good idea if its going to be a continued thing. Maybe if we give orgs time to put their budget together then we can work on approving this budget.

IC: It's 8:59 so this is over. Lets do announcements.
