INHIBITOR: Racist Microaggressions

[adapted from Sue, D. W. (2010). *Microaggressions in everyday life: Race, gender, and sexual orientation*. Hoboken, N.J.: Wiley.]

Intent

Everyone in our society should be treated with decency and respect, so I believe **ALL LIVES MATTER.**

There are legal and established means to entering the US and becoming a citizen. **ILLEGAL ALIENS** should not be allowed to remain in the country.

I'm from the west coast too! But, **WHERE ARE YOU REALLY FROM?**

CONTEXT
SOCIAL
SCIENCE

Impact

I don't (want to) see how specific racial/ethnic groups in our society are not treated with decency and respect.

Regardless of how or why you arrived in the US, if you are not a fully documented citizen, you are not a full person- only a criminal act.

Despite how long you or your ancestors have been in the US, because of how you look, you are a foreigner.
