COLLEGE

located at 9550 Inver Grove Trail (Dakota County Road 77), Inver Grove Heights, Minn.

A NEW DIRECTOR at ORDWAY.

The newest member of the Biology Department faculty is Mark DAVIS, who recently completed his graduate studies at Dartmouth. In addition to his academic assignment as Assistant Professor he has also been designated as director of the Katharine Ordway Natural History Study Area. His appointment permits a closer coordination between Ordway and the main campus and also gives interested students closer communication and counseling for independent studies at Ordway.
