Hello and welcome to Moral Psychology! I’m excited to have you in class this semester.

This course will explore fundamental questions of moral psychology. Which kinds of behaviors do we view as immoral? How are moral judgments shaped by intuition, emotion, and reasoning? Is climate change a moral issue? What are the developmental and evolutionary origins of moral judgments? When and why do we blame others? How do we make inferences about others’ moral character? In this course, we will gain insight into these topics, considering perspectives from social, developmental, evolutionary, and political psychology.

Readings for the course consist of primary literature (theoretical and empirical journal articles), which are available on Moodle. The set of readings for each week includes at least three articles (and usually more), typically totaling 40-60 pages. The course will include some lecture, but will primarily be discussion-based.

I have designed the structure and assignments of this course to meet several goals:

- To build your skills in examining moral behavior — and social behavior, more generally — from a social scientific perspective. This includes identifying research hypotheses, understanding the relationship between hypotheses and empirical data, considering alternative explanations, and connecting theories to applied or real-world patterns of behavior.

- To give you a space to engage deeply with course material, to discuss and defend your ideas, and to respectfully critique and debate others’ ideas.

- To help you become a more effective argumentative writer. This includes learning how to read and understand primary scientific literature, to construct arguments that relate to prior literature, and to communicate your ideas to different audiences.

- To build your skills in communicating your ideas in different modes (online forums, verbal presentations) and in different formats or degrees of formality (personal reflection, scientific writing).

This is a discussion-based class, so prepare to do lots of discussing! To give you a chance to discuss the material in different ways, we’ll have a mix of small-group and whole-class discussion time. Tuesdays will often include some amount of lecture, in addition to discussion. Thursdays will typically be entirely discussion-based days.

Each of you will facilitate the discussion (along with a partner) once during the semester. Typically, these student-led presentations will take place on Thursdays.
FLEXIBILITY TOKENS AND COVID POLICIES

I know that life sometimes interferes with deadlines, so I provide you with five “flexibility tokens” that allow you to miss some deadlines without penalty. Each token allows you a 48-hour extension on an assignment due date, and you can use a token for any reason at all. Please tell me that you’re using a token, but you don’t need to tell me why you’re using it. You may use more than one token for a given assignment, but I urge you to try not to do this. For example, you may submit each of five assignments 48-hours late OR you may submit three assignments 48-hours late and one assignment 96 hours late. In each example, your five tokens would cover the late deadlines, and you would not lose any points for lateness. If your tokens are all gone and you need additional extensions, please reach out and I will do my best to help. Note: you may not use flexibility tokens to get an extension on your class facilitation, your research presentation, or your final paper.

We will undoubtedly continue to face challenges, stressors, and uncertainty due to Covid-19 this semester. Even more so than usual, I expect all of us to treat each other with grace and understanding. I will extend as much flexibility and accommodation as I can to each of you, and I ask that you do the same to me.

If you feel sick or have any Covid symptoms, stay home. If you have a Health & Wellness appointment that conflicts with class, go to your appointment. I will not penalize you in any way for missing class for any Covid-related reason (feeling sick, having a health and wellness appointment, needing to quarantine, etc.).

If you are unable to come to class but are still feeling well enough to Zoom in, I’ll ask you to do so.

If you become ill and this impacts your ability to submit your work on time, I will work with you to come up with a new deadline. Please be mindful of the fact that it might take me much longer to give you grades/feedback on any work that is submitted late.

You must be in touch with me in advance of any Covid-related absence or any extension you need for a Covid-related reason. I am more than willing to be flexible, but I need to know about your circumstances prior to missing any classes/deadlines.

It’s also possible that I’ll get sick and won’t be able to come to class at some point during the semester. If that ends up being the case, we’ll hold our class meetings via Zoom.

ASSIGNMENTS AND EVALUATIONS

Reading Responses and Participation (40%)

You will submit a two-part reading response each week: an initial reading response at the beginning of the week, plus a follow-up response at the end of the week.

Initial responses should be 400+ words and are due each Monday, beginning Monday 9/5 (focusing on the readings for the week of 9/5). Enter/paste your text directly into Moodle; don’t upload a separate file. Your responses must address at least two readings. It’s often helpful to include a small amount of summary, which can help contextualize your response; but summarizing is not your primary goal here. Rather, your goal is to discuss merits and critiques of the work (e.g., regarding methodology, interpretations, claims, etc.), synthesize ideas/claims across multiple readings, offer fruitful future research ideas or questions, discuss practical applications of the research, etc.

Follow-up responses should be 300+ words and are due each Friday, beginning Friday 9/9. Here you can focus on topics that came up during the week’s discussions, other ideas you’ve had since your initial response, articles you didn’t get to focus on in your initial response, etc.
No reading response is required for the week you lead the discussion, and you may skip a reading response in one other week of your choosing. During the weeks of 10/20 and 11/24 (the weeks of Fall Break and Thanksgiving Break), you’ll submit an initial reading response, but you don’t need to submit a follow-up response.

The reading responses will constitute 25% of your grade for the course, and in-class participation will constitute another 15%.

Post initial 400+ word reading response to coming week’s Moodle forum by 8 PM every Monday;
Post 300+ word follow-up response (as a reply to your initial reading response) by 8 PM every Friday

Class Presentation and Discussion Facilitation (10%)

Once during the semester, you and a partner will present to the class and facilitate the discussion. The format for doing so is flexible. Possible options include: (a) identifying the major themes from the reading responses and organizing the discussion accordingly; (b) synthesizing the claims from the set of readings; (c) posing questions regarding interpretations of data/theory, or how data/theory might relate to other questions; (d) having the class participate in an activity or debate related to the week’s topic. These options are not mutually exclusive — you will likely want to implement several of them in your presentation and discussion leading (or choose other options). In addition, your presentation must incorporate one or two additional articles beyond those on the reading list. You must meet with me at least one week in advance to discuss your articles and plans for your presentation.

Climate Change Reflection (15%) — due Mon 10/10 by 8 PM

For this assignment, you will record some aspect of your own climate change-relevant behavior — regarding food consumption, energy usage, transportation, etc., or some combination thereof — over the course of two weeks. Then, after we have together explored the philosophical and psychological literature on morality and climate change, you will submit a reflection paper that summarizes your behavior, considers the psychological factors motivating or hindering this behavior, and identifies possible strategies for modifying your future behavior.

Research Paper, Peer Review, and Presentation (35%)

You will write a 10-12 page research paper on a topic of your choice within the field of moral psychology. The paper should be should be formatted in APA style (with 1” margins and 12-point double-spaced font; title page and references are excluded from page count). Your paper may take one of two approaches: (1) a Research Review, in which you review and synthesize research and defend a thesis based on this research; (2) a Research Proposal, in which you propose a study (or studies) that would extend the research on your topic, and you describe your predicted results and their implications. Additional details regarding this assignment will be provided in class.

As part of this assignment, you will also engage in a peer review process, providing feedback to two of your peers (consequently, you will receive feedback from two peers). This serves to improve your own and your peers’ writing and to familiarize you with the peer-review process, which is a central part of scientific writing.

On Tue 12/6 or Thu 12/8, you will give a brief (5-7 minute) presentation of your research project, plus by a 5-minute Q&A. This is an opportunity to practice your presentation skills, to share the insights from your project, and to get additional feedback to incorporate into your final paper. We will discuss this assignment in more detail in class.

Together, your research paper, peer review feedback, and presentation will constitute 35% of your grade for the course (25% for your final paper, 5% for the peer review feedback, and 5% for your presentation).

Due dates:
Topic (Fri 10/14), Annotated Bibliography (Wed 10/26), Draft (Mon 11/21),
Peer review (Wed 11/30), Presentations (Tue 12/6 and Thu 12/8), Final paper (Wed 12/14)
Topics, Readings, and Assignments

Note: I recommend that you read each week’s set of articles in the order I have listed them

* indicates a student-led presentation for that topic/week

Week of 9/5 (week 2): Moral Conviction and Moral Concern

Week of 9/12 (week 3): Moral Domains and Politics

Week of 9/19 (week 4): Intuitionism and Emotion

*Week of 9/26 (week 5): Dual Processes

*Week of 10/3 (week 6): Climate Change

**Week of 10/10 (week 7): Outcomes, Mental States, and Accountability**

** Climate Change Reflection due Monday 10/10 by 8 PM**
Upload .docx to Moodle. Please name file: Lastname_Reflection.docx

** Research Topic paragraph due Friday 10/14 by 8 PM**
Email me a paragraph w/ description of topic you want to examine in your research paper

** Week of 10/17 (week 8): Blame and Outrage**

** No class on Thu 10/20 (Fall Break) — no follow-up reading response required this week **

**Week of 10/24 (week 9): Moral Licensing and Hypocrisy**

** Annotated Bibliography due Wed 10/26 by 8 PM **
Upload .docx to Moodle. Please name file: Lastname_Bibliography.docx

**Week of 10/31 (week 10): Moral Character and Identity**

**Week of 11/7 (week 11): Development & Altruism**

*Week of 11/14 (week 12): Social (in)Justice: Sexism, Racism, Protest*

**Week of 11/21 (week 13): Exploring Current Events**

Readings TBD

** No class on Thu 11/24 (Thanksgiving Break) — no follow-up reading response required this week **

** Draft of Research Paper due Mon 11/21 by 8 PM **

Upload .docx to Moodle. Please name file: Lastname_Draft.docx

**Week of 11/28 (week 14): Artificial Intelligence**

** Peer Review Feedback due Wed 11/30 by 8 PM **
Email files to me. Please name files: Lastname_Comments1.docx and Lastname_Comments2.docx

Week of 12/5 (week 15): Research Presentations on Tue 12/6 and Thu 12/8
(No more readings or reading responses!)

** Final, Revised Research Paper due Wed 12/14 by 8 PM **
Upload .docx to Moodle. Please name file: Lastname_Final.docx

### ACCOMMODATIONS AND WELL-BEING

I am committed to creating an accessible and inclusive class environment where all students can fully participate and succeed. I will post all assignments to Moodle at least two weeks (and usually longer) before they are due. If you know you have a disability that affects your learning, please contact Shammah Bermudez in Disability Services (disabilityservices@macalester.edu). Please also email me so we can work together to ensure your accommodations and needs are being met. It is important for this to happen as early in the semester as possible, to ensure that your accommodations are implemented early on. Further information about disability services and accommodations is available at: [http://www.macalester.edu/disabilityservices](http://www.macalester.edu/disabilityservices)

I encourage you to make your well-being a priority throughout this semester and your career at Macalester. Investing time into taking care of yourself will help you more fully engage in and benefit from your academic experience. Beyond being a student, you are a human being carrying your own experiences, thoughts, emotions, and identities with you. It is important to acknowledge any stressors you may be facing, which can be mental, emotional, physical, cultural, financial, etc., and how they can have an impact on your academic experience. I encourage you to remember that sleeping, moving your body, and connecting with others can be strategies to help you increase your well-being and remain resilient. If you are having difficulties maintaining your well-being, please don’t hesitate to reach out to me or to find support from one of the resources listed on Macalester’s [Health and Wellness Resource guide](http://www.macalester.edu/healthandwellness).

### PLAGIARISM AND ACADEMIC INTEGRITY

Plagiarism is the presentation of others’ thoughts, ideas, or words as your own. Plagiarism can be blatant, such as directly copying other’s words, or it can be subtle, such as failing to properly cite another’s ideas. Either way, plagiarism violates Macalester College’s expectation that all members of the community act with academic integrity. If you are unsure about citations, wording, or similarity of structure, please meet with me to discuss these issues; I can help you make sure that you are citing and paraphrasing appropriately. If I have any reason to suspect your integrity in this class, I will contact you. After that meeting, I will determine what further steps are appropriate, and I may refer you to the Director of Academic Programs, who will determine additional consequences. If you have questions, please contact me or refer to this site: [http://www.macalester.edu/academicprograms/academicpolicies/academicintegrity/](http://www.macalester.edu/academicprograms/academicpolicies/academicintegrity/)
