

Study Away Coursework Details

Instructions:

1. Please download this PDF to your laptop. If you complete the table in your browser before downloading the PDF your work will not be saved!
2. ***When you are finished filling out the table, please save this file as a PDF and use the “file upload” button to upload the document back into your application.

Before filling out the table, read this important information!

- In the table below, please list all the titles, course numbers and credit values of your intended study away courses (including for-credit ISP/internship courses) based on currently available information. Additionally, state if you would like any courses you plan to take during study away to count towards a major or graduation requirement.
- **Study Center Program: Course Selection OR Set Curriculum:** If you are applying to a program with a list of specific study away courses offered each semester, please list your intended course names in the table.
- **Direct Enroll/Facilitated Direct Enroll/Hybrid:** If you are applying to a program that includes courses taught at a local university, it might be harder to know exactly what will be offered in advance. In that case, please list subjects or topics that you would like to take. It is common for students to change their course selection between the time of application and their study away semester.
- The Macalester Registrar expects that you plan on taking a full semester of courses as defined by your study away program. That is broadly defined as the equivalent of 12-18 U.S. semester credits, but you're expected to take 14-17 credits on study away programs, just as you would in a typical Macalester semester. In some cases that means 3-6 courses, depending on their credit value. Credit conversion information is available under the Academics tab on each [program's brochure page](#).
- Macalester credit is only given for successfully completed courses that do not repeat coursework already taken. Find more details on the CSA website for [study away coursework](#).

	Course Number AND Course Title or Subject	Credits (as listed by program)	Credits (equivalence to Mac)	Do you plan to count this course towards a major requirement? If so, which one?	Do you plan to count this course towards a graduation requirement? If so, which one?
Ex:	ARAB 2003 AMJO Arabic Language, Intermediate II	3	3	N/A	Second language proficiency
Ex:	Intermediate Psychology Course	6	3	Yes, psych elective	N/A
