Your first test will be during the laboratory time slot on Thursday, October 3, in Olin-Rice 302. You will be allowed to work from 8:30 to 10:30 a.m. The test will be closed to all material except for one side of an 8.5” x 11” sheet of paper, which you may fill with whatever information you want. You will turn in your “cheat sheet” along with your exam (not for any points; I’m just curious about what you choose to write).
